

Luis E. Banegas Saybe
luis@trois.io / github.com/luissaybe
Programmer

Summary

Back-end programmer working primarily with HTTP APIs, iOS / javascript clients. Focus is on creating software that is testable, continuously deployable and easily exported.

Employment

Adventist Health Systems	2015 - Present
Vencore	2014 - 2015
Cleargage	2013 - 2014
Code Axis	2012 - 2013

Education - University of Central Florida

B.S. Mathematics	2015 - 2017
B.S. Computer Science	2010 - 2012

Projects

jivecake.com - github.com/troisio
HTTP API project for registration management
Jersey / MongoDB / Swift on iOS / ES6 on web / facial recognition based registration

Things I Do / Know

Language Python / Java / C / JavaScript / bash / swift
Client web / iOS
Backend HTTP / actually reading RFCs / OAuth2
Storage SQL / mongoDB / Replication
Build Docker / TravisCI / git
Other WebSockets / Server Sent Events / OpenCV Facial Recognition

Things I am interested in

Mathematics
Programming Puzzles
Simplicity
